Presentations: a 15-20 minute presentation regarding your business. Presentations can begin with personal information, education, and family news and proceed to how you got into business, or can simply be focused on a service or aspect of your business.

- Handouts are permitted, flip-charts, a projector, or props and demos are often useful.
- A short round of questions and answers follow.

Guest Speakers/Activities: In weeks without presentations, you are responsible in your month for guest speakers or activities.

Guest speakers can be from the community or other businesses who will bring expert information of interest to the group. Invited speakers from a business should not be competitive with existing group members.

Activities can include one-on-one or group discussions regarding a topic of interest.
